

BUILD THE INTERNET OF THINGS WITH US

Cumulocity GmbH is a revolutionary, customer-centric company full of talented, enthusiastic people who enjoy coming to work every day. We keep sane working hours while still taking care of business. If this sounds like you, join our team.

Working Student Community Support (part-time)

What you'll do:

- Help our community of developers and customers in using Cumulocity.
- Support the community with tips & tricks, examples, tutorial material and documentation.
- Play with our Internet of Things devices!

What you need to bring along:

- Fluent written and spoken English, good communication skills and enthusiasm.
- Knowledge of REST and REST APIs.
- Knowledge of using REST from at least one of the following programming languages: Java, JavaScript, C.

What would be great:

- Knowledge of other programming languages.
- Knowledge of IoT development using platforms such as Arduino, Raspberry Pi and others.

What you'll get:

- Work in cool projects with international customers.
- Startup atmosphere and nice colleges.
- Gain knowledge in frontline cloud and IoT technologies.

We are an international company, with international customers and development located in Germany, Poland and Portugal. You must be able to fluently speak and write English. All positions are located in Düsseldorf, Germany.
